

BIOMODAL SOFTWARE LICENSE

NOTE: THIS LICENSE IS BASED ON THE APACHE-2.0¹ LICENSE, BUT HAS BEEN MODIFIED. IT IS **NOT** AN OPEN SOURCE LICENSE, DOES **NOT** ALLOW COMMERCIAL USE (AS DEFINED BELOW) AND HAS OTHER RESTRICTIONS WHICH BRING IT OUTSIDE THE OPEN SOURCE DEFINITION.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

“Academic Use” shall mean use, reproduction and distribution of a Work or any Derivative Work (the “Software”) for:

Use in teaching, study, learning, scholarship, or academic research (including publication of research findings) by individuals or educational or research organisations;

Use within an institution (such as a university, research institute, or other educational entity) for the purposes of education, teaching, training, or internal non-profit research;

Use by a non-profit organisation for the purposes of research, education or scholarship, where no charge is made to end users for the use of the Software itself (and the Software is not embedded in a commercial product or service for distribution).

“Commercial Use” shall mean use, reproduction and distribution of a Work or any Derivative Work (the “Software”) that is intended for, directed toward, or results in commercial advantage or monetary compensation, whether directly or indirectly, except for internal use of the Software within an organisation (including a commercial organisation) for purposes such as internal research, evaluation, training, testing, product development, or process improvement not falling within the following categories:

Distribution, licensing, sale, or sublicensing of the Software as part of a product, system, or managed service offered to customers, clients, or end-users for a fee or as part of a revenue-generating activity;

Provision of access to or use of the Software (including hosting, SaaS, or similar managed-service models) where any user, client, or third party pays for, subscribes to, or otherwise compensates the provider;

Use of the Software in performing commercial or paid services for third parties (e.g., consulting, analysis, or outsourcing activities);

¹ The Apache License Version 2.0 is copyright © 2004 The Apache Software Foundation. You can find the original license text at <http://www.apache.org/licenses/>

Integration of the Software (in whole or in part) into another software application, toolkit, or platform that is itself distributed, licensed, or provided under commercial terms; and

Any use by or for an entity whose primary purpose is commercial, where the Software materially supports its profit-making activities through distribution or third-party access.

For clarity, incidental or indirect commercial benefit arising from internal use (e.g., process optimisation, cost reduction, or skill development) does not by itself constitute Commercial Use;

The Licensor may publish from time to time notices on its website at biomodal.com which defines the scope of Commercial Use.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 8 of this document.

"Licensor" shall mean Biomodal Limited.

"You" (or "Your") shall mean an individual or legal entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship made available under the License.

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or legal entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or legal entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

(e) Where the Work includes functionality which displays the NOTICE text file through a command line interface command, then any Derivative Works that You distribute must retain that functionality.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License and, in particular, incorporates a restriction prohibiting Commercial Use.

5. Commercial and Academic Use. Commercial Use is expressly prohibited. Academic Use is expressly permitted provided that it does not also amount to Commercial Use.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.
